STATE OF NEW HAMPSHIRE 1989 TOWN WARRANT

TOWN OF STRATFORD, N.H.

To the inhabitants of the Town of Stratford, in the County of Cöös in said State of New Hampshire, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Town of Stratford on Tuesday, the Fourteenth Day of March next at ten o'clock in the forenoon to act upon the subjects hereinafter mentioned.

You are hereby warned that on said date and place the polls will be open at 10:00 o'clock in the forenoon and will remain open until 6:00 o'clock in the afternoon for the receipt of your ballots under the Non-Partisan Ballot System.

Article Number:

1. To see if the Town will vote to choose by Non-Partisan Ballot the following Town Officers:

One Selectman for Two Years
One Selectmen for Three Years
One Moderator for One Year
One Town Clerk for One Year
One Treasurer for One Year
One Trustee of Trust Funds for Three Years

2. To see if the Town will vote to instruct the Board of Selectmen to appoint all other Town Officers as required by law, not elected by Non-Partisan Ballot.
3. To see if the Town will vote to accept the Budget and to raise and appropriate money for the same, and if not, to see what sum of money the town will raise and appropriate to defray the town charges for the ensuing year.
4. To see if the Town will vote to instruct the Board of Selectmen and the Town Treasurer to borrow money in order to defray town charges in anticipation of taxes for the ensuing year.

5. To see if the Town will vote to authorize the Board of Selectmen to apply for, accept, and expend without further action of the Town Meeting money from the State, Federal, or other governmental unit or a private source which may become available during the fiscal year. (RSA 31:95b)
6. To see if the Town will vote to instruct the Board of Selectmen to hire a private auditing firm of accountants to audit the town books and to make an appropriation of \$4,900 to cover the costs of the same.
7. To see if the town will extend it's responsibility for town maintenance on the Mason Road from the previously approved 1300 feet to add an additional 450 feet to the northern boundary of the Shiela Hartford property line. (By Petition)

AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To The Members of the Board of Selectmen:

We have examined the general purpose financial statements of the Town of Stratford as of and for the year ended December 31, 1988, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing procedures and standards, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the Generally Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts, results in an incomplete presentation, as explained in the above paragraph, the general purpose financial position of the Town of Stratford as of December 31, 1988, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applies on a basis consistent with that of the preceeding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Stratford. Such information has been subjected to the auditing procedures applied in the examination of the general purpose statements, and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

POLICE DEPARTMENT

To The Honorable Board of Selectmen:

The Stratford Police Department remains a part-time department with officers on call 24 hrs. a day. All officers have been certified by the State of N.H. in the use of firearms and laws of the State. In addition to this, all officers will be taking an additional 8 hours of classroom training per order of N.H. Police Standards and Training Council.

Our accidents are on the increase. PLEASE remember to drive with care.

If you need an officer, call any one of the following numbers starting with the first one: Stratford Police Dept. 636-2353, John White 636-2573, Colin Noyes 922-3832, or Helen Williams 788-4072. I would like to take this opportunity to thank the Board of Selectmen and the residents of Town for their steadfast support of this department. The following complaints are what we received this year during the week when we are not on duty but "On Call". This does not include the numerous calls pertaining to legal advice or from someone just wanting to talk to a police officer.

Respectively Submitted,

Edna Fuller, Town Clerk

To The Honorable Selectmen and the Residents of the
Town of Stratford, NH

It is my pleasure to submit the following report covering my activities as Public Health Nurse for the township of Stratford.

During the year 1988, a total of 1453 calls were made. These calls covered routine post hospital, post clinic check ups. Routine personal care, illness related teaching and emergency calls.

A large number of my calls are in conjunction with the Community Health workers out of Colebrook in order to give our residents a contrunuity of care.

I wish to take this time to express my sincere thanks and a great deal of praise for their excellent care and continued support of our townspeople. Also heartfelt thanks to the residents, police and fire departments and ambulance personnel for their cooperation and support whenever needed.

Respectfully submitted,
Anita Covey, R.N.
Public Health Nurse

NORTH COUNTRY COUNCIL, INC. ANNUAL REPORT

North Country Council observed its sixteenth year of successful operation in 1988. The Council, chartered under NH RSA 36:45, provides non-profit local and regional planning assistance to member municipalities. The Board of Directors determined that last year's work program would focus on community planning, economic development, solid waste, transportation and housing. The Council maintains four standing committees which monitor local issues and determine Council policy. Overall, the Council's major objective is to work with North Country towns in solving local and regional problems.

In Stratford, the Council sponsored a workshop entitled "Innovative Land Use Controls - Technical Worth Considering" and provided technical planning assistance to the Town's Planning Board.

Community planning assistance continues to dominate our staff resources. New state mandates and rapid residential and commercial growth throughout the region placed an increasing burden on local planning and zoning boards in 1988. Regional workshops, technical bulletins and newsletters, ordinance review and update, as well as review of specific subdivision and site plan applications are a sampling of the myriad services performed this for our membership. The Council also co-sponsored the popular Municipal Law Lecture Series which reviewed new case law and other specific areas of legal interest to local officials.

In addition, grant writing and grant administration continue as important components of the Council's work program. Currently, NCC staff members are working in twelve towns administering fifteen Community Development Block Grant programs. These projects and sewer construction projects and targeted housing rehabilitation programs for income eligible residents.

In summary, it is important to understand that the North Country Council is organized and administered for the benefit of its constituents, local town governments. Our future success is, in large part, contingent upon your participation in Council activities. We rely on and appreciate involvement of town officials and residents and look forward to assisting your town this coming year.

To the Members of the School Board
Stratford School Board
Stratford, New Hampshire

We have examined the general purpose financial statements of the Stratford School District, for the year ended June 30, 1988, and have issued our report thereon dated November 23, 1988. As part of our examination, we made a study and evaluation of the internal control systems, including applicable internal administrative controls, used in administering Federal financial assistance programs to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards, the standards for financial and compliance audits contained in the Standards for Audit of Governmental Organizations, Programs, Activities, and Functions, issued by the U.S. General Accounting Office, the Single Audit Act of 1984, and the provisions of OMB Circular A-128, Audits of State and Local Governments. For the purpose of this report, we have classified the significant internal accounting and administrative controls used in administering Federal financial assistance programs in the following categories:

Accounting Controls

- Budgeting Cycle
- Payroll Cycle
- Expenditure (other than payroll) Cycle
- Data Processing Cycle
- Revenue Cycle
- Financial Reporting Cycle

Controls Used in Administering Federal Programs

- Political Activity
- Civil Rights
- Cash Management
- Federal Financial Reports

The management of the Stratford School District is responsible for establishing and maintaining internal control systems used in administering Federal financial assistance programs. In fulfilling that

responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control systems used in administering Federal financial assistance programs are to provide management with reasonable, but not absolute assurance that, with respect to Federal financial assistance programs, resource use is consistent with laws, regulations, and policies; resources are safeguarded against waste, loss and misuse; and reliable data are obtained, maintained, and fairly disclosed in reports.

Because of inherent limitations in any system of internal accounting and administrative controls used in administering Federal financial assistance programs, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study included all of the applicable control categories listed in the first paragraph. Such study and evaluation included the significant internal accounting and administrative controls used in administering the following nonmajor Federal financial assistance programs:

Department of Education

Improving School Programs - State
Block Grants (ECIA Chapter II)

Department of Agriculture

Food Distribution
National School Lunch Program
School and Roads - Grants to States

During the year ended June 30, 1988, the Stratford School District expended 100% of its Federal financial assistance under these nonmajor Federal financial assistance programs.

With respect to internal control systems used in administering these nonmajor Federal financial assistance programs, our study and evaluation included considering the types of errors and irregularities that could occur, determining the internal control procedures that should prevent or detect such errors and irregularities, determining whether the necessary procedures are prescribed and are

being followed satisfactorily, and evaluating any weaknesses.

Our study and evaluation was more limited than would be necessary to express an opinion on the internal control systems used in administering the Federal financial assistance programs of the Stratford School District. Accordingly, we do not express an opinion on the internal control systems used in administering the Federal financial assistance programs of the Stratford School District.

However, our study and evaluation and our examination disclosed no condition that we believe to be a material weakness in relation to a Federal financial assistance program.

This report is intended solely for the use of management and the applicable state and Federal agencies and should not be used for any other purpose. This restriction is not intended to limit the distribution of this report, which, upon acceptance by the Stratford School District, is a matter of public record.

MESSAGE FROM THE SUPERINTENDENT OF SCHOOLS

In preparing for the Stratford School District Annual Meeting, I could not escape the fact that once again the school district is facing difficult times. It would appear that this school district and its voters have been faced with very difficult decisions these past few years. The voters have been asked to sustain increased costs of educating the children with little or no expansion in the tax base.

The school board and staff have made efforts to keep costs at a minimum and yet like other aspects of our lives the costs have increased. The school board has met several times to work on the budget to present a reasonable budget that would support the basic programs of the school. The budget presented in this report will support the basic programs of the school. It will allow for more curriculum offerings to meet the needs of students. It will strengthen the curriculum in the middle grades.

It should be noted that although there is a 5% increase in the budget, the amount of money to be raised by taxes is less than last year. The reason for this is that we have received more funds than anticipated from the state. As some of you may know part of this increased income comes from additional sweepstakes monies, specifically \$20,668.00, which will be returned by the Department of Revenue Administration to reduce the tax assessment this fall.

In addition to the budget work, the school board approved the formation of a committee to examine the future of the school. This committee, consisting of citizens and educators, has held one meeting at the time of this report and is scheduled to meet again. Consultants from the State Department of Education are scheduled to come and discuss minimum standards with the committee.

Several projects approved last year are either completed or close to completion. Safety switches and a portable dust-collecting device for the wood machines have been installed in the shop area, as well as an air filter unit. The attic has been insulated. New doors have been ordered and the modifications to the "old ventilation duct system" have been scheduled. These repairs to the facility will have some positive effects on fuel consumption.

I would like to publicly thank members of the school board for their efforts and contributions on a variety of projects, especially the repair of the entrance roof near the principal's office.

As in the past I urge you, the citizens of Stratford, to come to the meeting, to be informed, and trust that you will support the school and its programs to the best of your ability.

Respectfully submitted,

Warren E. Bouchard
Superintendent of Schools

NOTICE

The Stratford School District received additional foundation aid funds which will be used to reduce taxes in the fall of 1989.

Excerpt from a memorandum from John T. McDonald, Ph.D., Commissioner of Education and Everett V. Taylor, Commissioner of Revenue Administration dated June 27, 1988.

To Reduce Taxes in Fiscal Year 1989.

If no action is taken by the school district, (i.e. the school district does not hold a meeting prior to June 30, 1989), the excess funds will appear on the Annual Financial Report for the year ending June 30, 1989, (MS - 25), as an unreserved fund balance and thus be used to reduce taxes in the fall of 1989.

PRINCIPAL'S REPORT

Thank you for giving me the opportunity to serve you as principal. The 1988-1989 school year has been a learning experience for those connected with Stratford School. To begin with, filling eleven teaching vacancies dominated the summer months as well as being the primary goal for the beginning of school. In completing this goal we were able to accomplish 3 major goals:

1. To hire a certified librarian and establish a library skills program.
2. To hire a certified music instructor to organize a band and chorus program.
3. To hire a certified math instructor to continue with the improvement of math instructions.

We have made a conscience effort towards improving the educational environment at Stratford School for students, professionals, and the community by:

1. Teaching students to respect the rights and property of others and to take responsibility for their behavior.
2. Creating a supportive environment for professionals to practice their art.
3. Establishing an active Parent Teacher Organization (PTO). In order to bridge the gap between school and the community.
4. Make good use of the media by promoting positive school events through new articles, pictures, and press releases.

Several physical improvements have and or will be made during the 1988-1989 school year.

1. Shop ventilation and dust collecting system.
2. Installing new doors in major entrances.
3. New public address system.
4. Additional insulation.
5. Completing duct work to meet fire codes.
6. Asbestos management plan.
7. Repair overhang in office doorway.

One of the years most significant development is the organization of the Stratford School study committee. This Advisory Committee is designed to examine the rising cost of educating Stratford students while meeting minimum state standards. With this information, the committee will develop options and recommendations for providing education to Stratford School students. Hopefully, this committee will provide people with answers regarding their common concerns while developing a renewed interest in Stratford School and its community.

Other district goals include:

1. To conduct a review and assessment of the high school English program and make any adjustments.
2. To conduct a review and assessment of the high school Mathematics program and make any adjustments.
3. To complete the district policy manual.

Many schools have more money and greater resources than Stratford School. Yet despite our limitations, Stratford School is able to provide students with a solid education. We are small and self contained, therefore we are able to give students the "personal" attention necessary to develop into positive, productive, and contributing members of society. Stratford School has a committed staff of caring and dedicated professionals who spend long hours to make greater opportunities for your children.

As your principal, my goal is to make Stratford an outstanding educational facility. Obviously this can not happen over night and one person cannot do it alone. I need your help. If you believe that educating children is the most important function of society then work with me to make Stratford School better. When folks roll up their sleeves and work together towards a common goal, almost any achievement is possible. Your support, ideas, and involvement is greatly appreciated.

Respectfully submitted,

John Graziano
Principal

RIGHTS OF PARENTS OR GUARDIANS

As the parent or guardian of a child who may require or who is receiving special education and/or related services, you have the following rights:

*You have the right to have access to and examine all records relating to your child's education.

*You have a right to receive prior written notice whenever the local educational agency proposes to begin or change the special educational referral, evaluation and/or educational placement of your child. You also have a right to give your written consent before initial special education placement and before any individual evaluation of your child.

*You have a right to question any matter, decision or recommendation relating to your child's referral, evaluation or educational placement.

*You have a right to request an independent educational evaluation obtained by the local educational agency. If your request is accepted, the evaluation will be conducted by a certified or licensed professional examiner who is independent of the local educational agency and will be performed at no cost to you. Should your request be denied, you have a right to appeal this decision as described below.

*If you have any complaints regarding the referral, evaluation or educational placement of your child, you have a right to meet with the school board. If any agreement is unable to be reached, you have the right to an impartial hearing conducted by a state appointed due process hearing officer.

*At this hearing, you have the right to be assisted by person(s) with special knowledge or training, or by an attorney, and the right to present evidence and confront, cross-examine and compel the attendance of witnesses.

*After this hearing, you have the right to a written or electronic verbatim recording of such hearing. You have the right to obtain written findings of fact and decisions of the hearing at no cost.

*If the decision of the impartial hearing at the local level is not acceptable to you, you have the right to appeal this decision to the State Board of Education or Civil Court.

*During any of the hearing or appeal procedures your child shall remain in the current education program or, if applying for initial admission to the public school, shall be placed in a regular program until all proceedings have been completed, unless you and the school officials agree otherwise.
